EV WALL MOUNTED RETRACTABLE CABLE REEL with 4.5m 22kW cable and plugs

Description

The SEVR EV wall mounted, retractable cable reel keeps your EV cables organised and out of the way. With 4.5m of output length, the cable reel can be mounted high to allow the cable to go over the top of the vehicle or next to your charger to keep the cable off the floor and not a trip-hazard. This cable reel also supports 7kW charging on single-phase systems. Please Note: The cable reel is only compatible with untethered EV chargers - it is not possible to connect a tethered charger cable to the input cable of this reel.

Features and benefits

- Retractable reel automatically winds the cable into the housing
- 32A
- 22kW 3-phase and 7kW 1-phase capable charging
- Type 2 plugs suits all EV chargers and vehicles
- 4.5m output cable and 1m input cable length

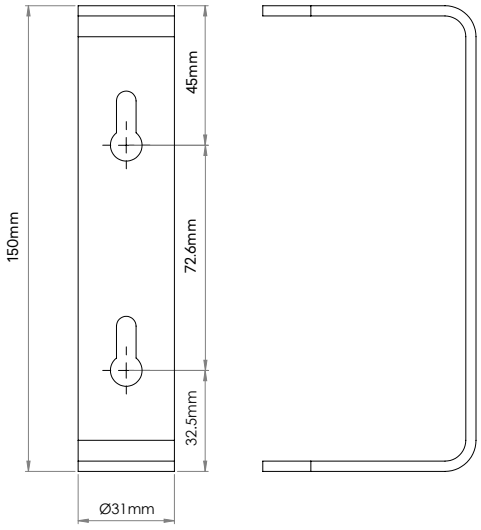

Technical Information

	SV-EVACC-22-RE-5B
Weight	9kg
Dimensions	L 301mm x H 351mm x W 185mm
Total Power Consumed	22kW 3-phase, 7kW 1-phase
Operating Current	32A at 480V
IP Rating	Housing: IP20 (Indoor use) I Charging Cable: IP55
Mounting Type	Wall Mount
Ambient Temperature	-35°C to +50°C
Plug Type	Type 2: 1x Male, 1x Female
Retractable Charging Cable Length	4.5m
Material Housing	TPE/TPU Cable & PP Shell (Glass Fibre Reinforced)
Colour	Black
Swivel Range	Approx. 130°

Mounting Instructions

Check that the surface you are mounting to can support the product's weight and forces produced during use. Always use mounting hardware rated for the product's weight and compatible with the wall type. Failure to follow these guidelines could result in unsafe conditions or product failure.

Charging Instructions

Remove the protective cap of the connection plug and plug the short connection cable into the socket of your charging station. Make sure that the plug inserted all the way.

Start Charging

Pull out the charging cable and lock it in place.
Remove the protective cap from the charging plug.
Insert the charging plug into the connection socket of the vehicle. The vehicle displays the active charging process and the switch-on status.

End Charging

Remove the charging plug from the vehicle.
Put the protective cap on the charging plug.
Pull the charging cable until the lock releases. Slowly guide the charging cable back into the car charger cable reel.

Safety Instructions

Read and follow all warnings and instructions before installing and operating the product.

⚠ **WARNING:** To avoid fire, injury or death, carefully read and follow the instructions during installation, operation and maintenance.

-DO NOT put fingers into the electric vehicle connector.

-DO NOT use the product if the flexible power cord or EV cable is frayed, insulation-broken, or any other signs of damage.

-DO NOT use the product if the enclosure or the EV connector is broken, cracked, open, or shows any other indication of damage.

-DO NOT remove cover or attempt to open the enclosure because of risk of electric shock

-DO NOT install the product near flammable, explosive, or combustible materials.

⚠ **WARNING:** The product should be supervised when used around children.

⚠ **WARNING:** To avoid a risk of fire or electric shock, do not use this device with an extension cord.

⚠ **WARNING:** Do not under any circumstances make alterations to the product. Any disregard of this instruction represents a safety risk, fundamentally breaches the warranty provisions and may void the warranty with immediate effect.

❗ **CAUTION:** Do not put heavy objects on the reel to avoid damage.

❗ **CAUTION:** Do not cover the product with stickers or other objects or materials.

❗ **CAUTION:** The device must not be installed in close vicinity to running water, water jets or areas subject to flooding.
